RE: United States of America  
v.  
Doshay Antwan Smith

case No.: 7:16-CR-0005

Sir, I am writing you this letter due to my lack of understanding your position and your Incorrect filing of Sentencing memorandum. I say Incorrect due to the fact that on May 26, 2017 I accepted and entered a plea agreement for two counts of distribution of Methamphetamine (less than 2grams total) for a sentence of no more than 188 months. I had absolutely No Intention to pleading guilty to any Conspiracy charges what so ever. And I did not.

Nevertheless throughout the United States Sentencing Memorandum you exuberantly refer and categorise, (Facts of The Case, PSR, Nature And Circumstances of The Offence,) ETC... notions and accusations of "said" Conspiracy. In offering me my plea, the government agrees with the defence

that in no way, is there any guilt of conspiracy. No where in my plea agreement does the word "Conspiracy" exist. Therefore it is clearly inflammatory and conflicting to infer such as you have in your memorandum.

Even though the government disagrees with the PSR and its recommendation of 235-293 months, it is the government itself providing this misleading information to United States Probation Officer (Lollie Shipp Burns) or else she would not be making these false and misleading accusations along with her (off the chart) recommendation. Is it the governments intention to stand its recommendation, that reflects the plea agreement, but at the same time promote the opposite by allowing the PSR to misrepresent the facts with gossip and out right lies?

As you know I'm not an officer of the court, and have limited experience in dealing with "Honorable" men such as yourself, I find this process to be ~~totally~~ some dis disturbing at the least and some what sinister. And I conclude by stating that I probably would have not entered any agreement without being totally duped by my attorney (Seth Weston) who seems to have effectively worked hand and hand with your office to basically trick me into this plea. In your response, please, in your own words explain what is really going on to this inexperienced and obviously ignorant citizen, who is

compelled to question a process that will be instrumental in deciding the fate of the rest of my life. Is it the common practice of the AUSA office to undermine and misrepresent the truth, and to make matters worst my attorney (Seth Weston) has taken the position that I should stand up in open court and lie to the judge, stating that I dealt with said persons in a capacity that would put me in a conspiracy. When surly I have not plead to any form of "Conspiracy".

Respectfully,

Doshay Antuan Smith
